Olympic Athletes Have Heart Problems Too

<https://www.reuters.com/article/us-health-olympicathletes-heart-idUSKBN15334Z>

Tragic Pro Athlete Heart Attack Stories are out there too, however, the real issue is not fitness or how fit the athlete is to participate in a sport, but their overall health and diets too, cell nourishment-diet is something that general medical doctors are not specialist in regardless, even if they have taken sports medicine; and the nutritionist primary focus is on the food intake.

This is where a Naturopath comes in; we look first to find potential health issues such as heart disease, diabetes, high blood pressure, nervous system issues, blood issues etc., etc. Then, we take a proactive stance to restoring to the body essential nutrients to make the body perform on a optimum health level.

At Genesis Health and Nutrition Center we use the latest advances in the science of health and heart diagnosis, and health supplementation in order to properly get rid of pollutants while replacing them with the cell nourishment that the body needs to promote and maintain a healthy lifestyle which also includes a healthy and strong heart.

Contact Dr. Abdel Nuriddin for a Sports and Fitness Assessment today! We will provide services for Heart Imaging and or Personal Health Testing for your various sports team members at no cost to your school or facility, or for your Personal Training clients. Our Fee is reasonable at only \$99 per individual for heart assessment and \$199 for both assessments. This service covers them and protects you!

ASK! How you can raise money for your school or if you have an email/ mailing list of only 1500 people or more how you can partner with us to provide great health supplementation to your team members/clients.
